Dear David Brooke Rush Builders Customer:

I am happy to write this letter of recommendation for DBR Builders of Perkasio. As a sub-contractor, it is naturally easier to write about some builders than others.

I have been doing insulation work and radiant floor heating for Brooke Rush for about 23 years. I believe that Brooke's attention to detail is the key ingredient enabling us to consistently provide his customers with the most comfortable, economical and durable homes in the area.

Brooke's jobs are well run. Schedules are accurate and adhered to. Conflicts and overlapping of subcontractors are avoided, giving each the opportunity to give their best effort to the job. Of course, this is to Brooke's advantage, but more importantly to you, the customer.

Because I know exactly what to expect on a "DBR" job, I am happy to "sharpen my pencil" for Brooke. If other subs feel the same, the customer will obviously be getting the highest quality for their investment dollars.

Wishing you success with your building project.

Sincerely,

Daryl Derstine, Owner
Derstine Insulation, Inc.
