David Brooke Rush Builders  
732 E. Creamery Road  
Perkasie, PA 18944

Dear Brooke,

I wanted to take a few moments to thank you for our business relationship over the years. Our company American Colonial Crown Mouldings, has been your manufacturer of Aluminum & Copper Crown Mouldings since the 1990's. Our focus has been to offer an alternative to flat unsightly aluminum trim in new construction, and to aide restoration of original deteriorating exterior trim design, with a low maintenance yet beautiful result.

It is always encouraging to meet and have the privilege to work with a Company such as David Brooke Rush Builders, who not only desires quality in the building materials they purchase but will search and travel to discover new and unique products to pass on to each of their clients. Brooke takes each project and applies a personal touch.

Integrity is a word often used but seeing it at work is a true visual picture of actions that speak louder than words. David Brook Rush Builders truly exemplify integrity by remaining environmentally conscious, showing concern for detail, providing service and quality which all benefit their prospective clientele.

Brooke we wish you well as you continue to serve in the building & restoration community, and look forward to being one of your valued resources.

Sincerely,

A handwritten signature in black ink, appearing to read "Roy D. Brown", is written over a large, light-colored circular scribble.

Roy D. Brown CEO  
American Colonial Crown Mouldings, Inc.
