To Potential Customer:

For twenty years, Ken Beer and Sons Excavating, Inc. has been partnering with David Brooke Rush Builders in the construction industry. During that time, we have worked on jobs that have varied greatly in both size and complexity. No matter the size or complexity of the job, they have always been well thought out and organized with very few scheduling issues.

From a subcontractor's viewpoint, developing a project with David Brooke Rush Builders is a positive experience. Every aspect of the job is evaluated with considerable attention paid to details. All discussions pertaining to the job are conducted in a professional manner and instructions are clear and concise.

The job-site itself is usually well-organized creating a work environment which operates at high efficiency. It can be very difficult to perform your trade well if the timing of other subcontractors' work or deliveries is not considered. This is not a problem on a DBR Builders job. Also, the job-site is always kept clean and neat which is a reflection of the company's work ethic.

We, at Ken Beer and Sons, have found the quality of DBR Builders workmanship to be superior and would readily recommend them to prospective customers.

Respectfully,

A handwritten signature in black ink, appearing to read "Roger D. Beer".

Roger D. Beer  
President
