

December 28, 2007

Hi Brooke,

It's been about a year since you did the total remake of our kitchen and we wanted you to know we couldn't be happier!

You were great to work with on every phase of the project and your careful planning resulted in a flawlessly executed process. Plus, your attention to detail caused us the minimal amount of inconvenience during the construction and the fact you so closely adhered to the timeline allowed us to always understand and predict what was happening.

We waited this long to let you know our feelings because we wanted to make sure our thoughts weren't clouded by the beautiful kitchen you created for us.

Well, not only are we -- not to mention our friends and family -- dazzled every time we look at the kitchen but the functionality is far superior to what we had previously. And to top it off, the quality of your team's workmanship, along with the superior materials you used, have resulted in long lasting beauty.

Since we like to cook, and enjoy entertaining, we've given the kitchen a lot of use these many months and we're delighted to tell you, it still looks as incredible as it did the day you completed it!

In short Brooke... thanks for a job well done! We'd highly recommend you to anyone looking for an honest, reliable, highly-skilled, professional construction company.

Best Regards,  
Jay & Terry Siff
