To whom it may concern,

June 11, 2009

It has truly been a pleasure to handle the propane supply for David Brooke Rush Builder. The attention to detail and having everything prepped for our arrival is top notch. Open lines of communication have been a huge benefit, and having the details ahead of time are very crucial to meeting the customer's needs. Brooke's commitment to the complete package sets him apart from others in his field. He holds anyone working with him to a high standard and that is reflected in his completed projects.

Penn Valley Gas looks forward to many years of working together with David Brooke Rush Builders.

Sincerely,

A handwritten signature in black ink, appearing to read "Ray Worner". The signature is fluid and cursive, with a long horizontal stroke extending to the right.
